Technique: beadweaving

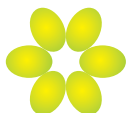

## Procedure:

Step 1:  
The chick consists of four triangles.  
Sew the triangles using a flower pattern.  
First, sew 6 flowers and then add one less  
in each successive row.  
Continue the procedure until there is only  
one at the top; sew the line in at the top  
(figs. 1a, 1b, 1c and 1d).

Step 2:

Create the eyes by stringing a neon rocaille onto a needle and line and threading it through the sewn surface in a suitable position. String a black rocaille and thread the needle and the line back through it and tie a firm knot. Use the same procedure for the second eye; sew the eyes before sewing up the entire chick (fig. 2).

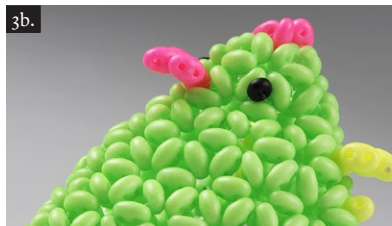

Step 3:

Sew the triangle together and create a pyramid. Sew a Twin into the points, tie the points together: only the comb made from pink Twins is not tied up (fig. 3a). When sewing the sides, don't forget the beak and the wings made from Twins; sew the pyramid (the chick) together with a neon rocaille (fig. 3b).
