glass colors with hundreds of color finishes.

DESIGN BY JAROSLAVA RUZICKOVA

FLOWER MADE FROM PRECIOSA Twin™ AND PRECIOSA Solo™

COLORFUL WORLD OF BEADS AND SEED BEADS

PRECIOSA ORNELA presents another member in the family of traditional Czech beads and seed beads, the PRECIOSA Solo™ Pressed Bead. The PRECIOSA Solo™ Pressed Bead is the same shape and size as the PRECIOSA Twin™ two-hole Pressed Bead and Seed Bead, but it has only one hole, as the name SOLO suggests. This new accessory bead is the same size as the PRECIOSA Twin™ in both its bead and seed bead forms. Its dimensions are 2.5 x 5 mm and it may be produced in all glass colors with the option of any surface finish. PRECIOSA Solo™ Pressed Beads are an excellent supplement to the new two-hole PRECIOSA Twin™ in those cases where free holes are superfluous.

If you have not yet had the opportunity to try out the possibilities offered by this oval one-hole pressed bead, here is a very simple tutorial for the creation of a popular flower which can be used as a decoration for a mobile phone, a handbag or a key ring or as a pair of jolly earrings, part of a necklace or as the basis for more complex costume jewelry products.

We wish you many creative ideas when working with the new one-hole PRECIOSA Solo™ Pressed Beads, as well as with other types of Czech beads and seed beads :o). Welcome to our world of infinite possibilities!

Materials and Tools:

PRECIOSA Twin™ Seed Beads (**T**)
321 96 001; 2.5 x 5 mm (11 per flower)
or
PRECIOSA Twin™ Pressed Beads (**T**)
117 01 323; 2.5 x 5 mm (11 per flower)

PRECIOSA Solo™ Pressed Beads (**SPB**)
117 01 323; 2.5 x 5 mm (9 per flower)

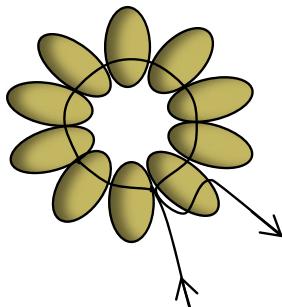

a 0,25 mm line, flat nosed pliers, scissors,
a mobile phone cord

Difficulty: ● ● ● ● ●

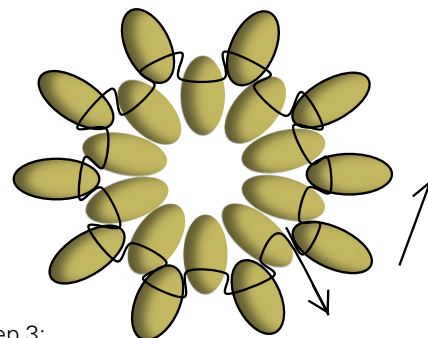

Procedure:

Step 1:
String 10x **T** on a line which is about 12 cm long. Move the strung seed beads to one end of the line and tie them in a circle with a double knot on the line. Pass the shorter end of the line through the nearest hole of the **T** and pull the knot into the hole so that it is not visible. Pass the other end of the line through the nearest free holes of the **T**.

Step 2:

In the second row, string 1x **T** onto the line and then pass it through the nearest free hole of the neighbouring **T** from the initial circle. Further add 1x **SPB** between the individual remaining **T** from the initial circle. End this row with a firm knot and once again pass the free end of the line through the nearest hole of the **T** and **SPB**. Cut off the remaining end of the line. The flower made of beads and seed beads from the PRECIOSA Traditional Czech Beads brand is now finished!

Step 3:

Take the flat nose pliers and slightly open the ring on the mobile phone cord; pass it through the free hole of one **T** between the **SPB** and then close the ring again using the flat nose pliers. The ring may be also strung onto the **T** before beginning the second row. You will at least be sure that the selected Twin is suitable and the ring can be passed through the hole.
