SOLGEL COLORS

Solgel colors

PRECIOSA ORNELA is the manufacturer of the widest range of glass seed beads in the world. One of the most popular color decorations is **Solgel**. This involves a color range of up to thirty shades in three various levels of opaqueness. We can apply these colors to seed beads made from crystal, crystal with a silver lining, alabaster and chalk. We offer a total of 360 color variants which we have presented in a new three-page seed bead color chart.

Thanks to the improvement of the production technology, it is also possible to apply Solgel colors to selected shapes of crystal beads from the **PRECIOSA Traditional Czech Beads™** brand. We offer pressed beads represented by the most successful new **PRECIOSA Pip™** bead with dimensions of 5 x 7 mm and a flower with a diameter of 5 mm in the shape of a **PRECIOSA Forget-me-not** in seventeen shades. Both bead shapes can be used excellently in embroidery and other flat applications. At the same time, it is also possible to combine them with fire polished beads and rocailles.

The aforementioned pressed beads and fire polished beads in the sizes of 4, 6 and 8 mm colored with Solgel are pre-stocked for our customers.

The minimum amount when ordering pressed beads and fire polished beads is **1 HDZ** (1200 pieces).

The minimum amount of the color finish for other PRECIOSA crystal beads in the **14 mm** size is **2 kg**.
