PRECIOSA

# PRECIOSA Rola™

*PRECIOSA ORNELA introduces its new cutting technology for the production of traditional Czech seed beads.*

*The main advantage of this technology is its increased precision, which enables the better adherence to the dimensions of the seed beads. The first seed bead manufactured using this technology is the PRECIOSA Rola™, which we offer in the sizes of 5 x 3.5 mm, 7 x 3.5 mm and 10 x 5 mm. The cylindrical shape of thick glass tubes with a large hole is used and divided into shorter segments. Your playful nature will enjoy the carnival of colors predominantly from the ranks of the exclusive rocaille range, which especially includes PRECIOSA Rocailles with stripes and PRECIOSA Cornelian.*

*Many will also be pleased by the perfection of the crystal cylinders in three sizes with an absolutely precise silver lining.*
